Canada's Needs

No. 4—A Greater Use of Canadian Raw Materials

Men of all shades of political thought, and all students of economics, are agreed that the interests of Canada call for a reduction in imports of articles which the Canadian people can produce for themselves, and an increase in the export of those products and articles of which this Dominion can easily and profitably produce a surplus, in order that, through a combination of these two developments, a pronounced improvement may be brought about in the balance of trade in favor of the Dominion. It is when we come to consideration of ways and means whereby such a desirable and necessary change is to be effected that opinions sharply differ.

One school of political thought declares that the only effective means to increase imports and increase home production is through a protective tariff—that is, a tariff sufficiently high to either shut out foreign competition or at least to enable the Canadian grower or manufacturer to underbid foreign goods of a like kind.

The opposing school of thought contends that the inevitable result of such a tariff is to increase prices as to place a handicap on articles needed for the development of the country, and that thereby production at home is hampered, and, while import trade may be curtailed, production for export is likewise lowered and the buying power of the whole country reduced, and prices so enhanced that people are forced to go without many things which otherwise they would be able to purchase, and that this decreased buying power results in depression of trade and consequent unemployment.

The writer has no intention of taking any part in this political controversy. Whatever the effect of the tariff may be one way or the other, the writer inclines to the view that the real difficulty and economic weakness of the Canadian position at present is to be found in another direction.

The commercial strength of Germany before the war was found in the energy displayed by Government and people in developing the natural resources of the country for use at home and abroad. The same thing is true of the United States. Neither of these countries imported to any extent anything they could produce at home. It will be said that both these countries had protective tariffs and it may be argued that such tariffs were responsible for bringing about the result noted. But were they so responsible?

Canada has had a protective tariff for many years, yet this country has failed to develop many of its natural resources of raw material to anything like their full extent, and has gone on importing supplies which could have been secured at home. For example, Western Canada has some of the largest coal deposits in the world, yet for years millions of dollars worth of coal have been hauled by rail and water from Pennsylvania for use in this country. While Western Canada was doing this, Germany, as a result of scientific research work, was using greatly inferior coal to the Western Canada article in the great German factories and as fuel for her people. Ontario lacks coal and has for decades followed the line of least resistance and imported millions of tons annually from Pennsylvania whereas much of Ontario's and Quebec's industrial fuel requirements might have been obtained in Nova Scotia brought by water transportation up the St. Lawrence. But it was easier to continue to get supplies from Pennsylvania than to engage in the national work of developing an inter-provincial trade in coal from the Maritime Provinces via the St. Lawrence route.

Canada possesses enormously rich deposits in iron, copper and other minerals, but they lack development, and we continue to import huge quantities of iron ore from the United States. Why? It is stated that one reason is that United States capitalists have secured control of the Canadian deposits and refuse to develop them so long as they can obtain sufficient quantities from their own mines; that, in a word, they are holding their Canadian properties in reserve against the day when their United States mines become exhausted and that then, and not until then, will they develop their Canadian held properties. If this is so, and there appears to be evidence to support this charge, then it is high time the Canadian Government took steps to put an end to such an outrage by compelling the development and operation of these Canadian mineral properties with a penalty of forfeiture if such development is not preceded with within a reasonable time.

Many Canadian manufacturers continue to import raw, or semi-manufactured, supplies to be worked up into a more finished product when, by the expenditure of some money and the display of a little more initiative and enterprise, such supplies could be obtained within Canada, thereby increasing our import trade and providing a very considerable volume of employment within Canada, and making possible a large increase in the value of Canada's export trade.

There are many things Canada cannot produce and must, therefore, import, but there are many supplies now imported which could just as well be obtained at home, and it is the duty of the Government to direct its energies and frame its fiscal policy along lines which will promote such development within Canada.

Farming Not a Full Occupation

One Who Likes Work Finds a Very Interesting

To be a good farmer, one must like farming. He must be interested in the things he works with, and in the problems he meets. He works with soil, with machinery, with seed, with growing crops and with animals. He works also with markets. The problems he meets arise from the weather and its effects on soil, seed and crops; from weeds and plants and animal diseases; from the wearing of machinery; from fluctuating prices and from men who, not willing to work themselves, spend their time in working others, and in trying to reap the rewards of other men's labor. All these interests and problems may be merely perplexing and baffling and defeating, but many farmers are winning financial success out of these conditions and are finding them anything but dull.

EVERY WOMAN
IN POOR HEALTH

Has an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her one desire is for more strength and better health. What sickly worn out women need is a cleansing, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine cleans out the wastes from the system, regulates the bowels, helps the blood. To look your best, to feel fit and live all day, to be free from lassitude and headache, use Dr. Hamilton's Pills regularly life at all dealers or The Caltanissetta Co., Montreal.

A GOOD APPETITE
GREATLY DESIRED

The Occasional Use of a Tonic Ensures a Good Appetite and Good Health

Lack of appetite is a common trouble, and indicates that the digestive system is out of order. Lacking a healthy appetite many people go long without food or eat sparingly because food seems to distress them, and it is no wonder they complain of being constantly tired and unable to stand any strain. All this simply means that the digestive system is not doing its proper work and that the nutriment that should come from the food is not being distributed to the various organs of the body. In other words, the blood is growing thin and watery. In such cases what is needed is a tonic and among all medicines there is no tonic so equal Dr. Williams' Pink Pills. Take a short treatment with these pills and note how promptly your appetite returns and your power to digest food improves. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the experience of Mrs. William Bennett, Cleland Corners, N.S., who says: "For a long time I suffered severely from indigestion. I could hardly eat, and anything I did eat disagreed with me. The result was I became badly run down. I suffered greatly from headaches, and often passed sleepless nights. I had taken a great deal of doctor's medicine with very little benefit, and having read much about Dr. Williams' Pink Pills, I decided to try them. The result has met my best expectations. My digestion is now as good as ever. I sleep well at night, and have gained in flesh, and now when anyone in our family is ill this is the only medicine to take."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

UNION BANK OF CANADA
HAS AN EXCEPTIONALLY STRONG STATEMENT

Bank's Position is Well Maintained, the Liquid Assets being 53.70 per cent. of Total Liabilities to the Public—Resources Aggregate \$152,625,366

THE balance sheet of the Union Bank of Canada, for the fiscal year ended November 30th, 1921, which was returned to the shareholders at the 57th annual meeting, held at the Bank's head office in the city of Winnipeg, on Monday, January 9th, discloses this well-known banking institution to be in a very strong and liquid position. The meeting was largely attended by representative shareholders. W. H. Allan, Vice-President, presided. H. B. Shaw, General Manager, presented the Bank's annual statement.

Following the shareholders' meeting, the Board of Directors elected W. H. Allan, President, John Galt, former president, retiring because of his removal from Winnipeg to Victoria, B.C. Mr. Galt remains a director of the Bank. H. B. Shaw was elected Vice-President, and will continue as General Manager.

The Bank's assets total \$152,625,366. The readily available portion of these assets represents 53.70 per cent. of the Bank's total liabilities to the public, thus demonstrating that the liquid position of the Bank has been strongly maintained.

A very strong feature of the statement is the carrying forward of \$541,886 into next year's profit account, this being \$400,800 greater than the previous year, and the largest amount in the Bank's history.

That the Bank has continued to do its full share for the commercial interests of Canada is shown by the fact that the total of these loans at the end of the year was \$85,010,907.

Grain loans total \$7,295,462. Loans to Governments and Municipalities are \$7,420,529.

Deposits totalling \$114,723,755 are reported.

Net profits for the year amounted to \$1,341,230, which is about \$200,000 less than the previous year.

Complimentary copy of our Year Book, giving statistics of the progress of Canada may be obtained from any of our branch managers.

Drop in Montreal Customs Receipts

Customs and excise receipts collected at the port of Montreal during the past year amounted to \$80,271,576. This was a decline of \$16,846,548 due to a general diminution in the volume of imports, the abolition of the customs luxury tax, and the declining value of the goods brought into the country.

Mother, Quick! Give
California Fig Syrup
For Child's Bowels

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again. Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

U. F. A. Convention Notes.

To the U. F. A. Locals:

Being a delegate from Duffield local to the annual convention of the U. F. A. and U. F. W. A. Independent Political Association, held Jan. 14 and 15, I beg to report as follows:

The pool rate was \$4.25, and anybody whose fare was less had to pay in, and anybody whose fare was more was paid the difference.

One lady delegate from Ponca River had to be paid about \$29, as her fare was \$33 odd.

Most of the Ponca River delegates were going on to Calgary U. F. Convention, and consequently they had no part in this pool. As I was going on to Calgary, I neither had to pay in nor get anything out.

The people from the Far North seemed to show the most enthusiasm, and I suppose that, as it will cost them \$50 each to get to Calgary, if they were not enthusiastic their locals would leave them at home. Later on, when redistribution comes, they will have a convention of their own.

There were 57 accredited delegates at the Convention, of whom only three came from west of Edmonton. Duffield, Entwistle and Jenkins were represented.

The Constitution was all gone over on Saturday. Most of the resolutions which were to go to the Calgary Convention were dealt with on this day.

Among the visitors were: Mr. Kennedy, member for West Edmonton, who made a speech Monday; and our two local members of the Provincial House—Moody Washburn and Mr. McKinn.

We have no need to be ashamed of any of them. Mr. Kennedy struck me as being the biggest and best man of the three, and this is probably as it should be. One thing he said in his speech was that he considered his triumph was due more to the Cause than to his own personal efforts, seeing that some of his largest majorities were in those polling subdivisions where he had not been able to visit at all.

He said he had been busy since election in putting his private affairs in such shape that he could give all his time to his work as member of the Federal House; and he expected to spend his time at Ottawa, and among his constituents, and sometimes on his farm. He said his efforts would be to secure the best legislation possible for Alberta, bearing in mind the country as a whole; and that he would also endeavor to see

Coast Prizes for Alberta.

While residents of the district were at the Coast, the past season many of them were naturally asked "Do you know Wm. Gilbert of Stony Plain?"

Of course. Well, he exhibited his pigs in competition with five herds—1 from the British Columbia University, which has the pick of the States and Canada.

This is what he did: At Royal Show, New Westminster, 10 firsts out of 11. Grand Champion and Diploma Honor.

Gold Medal, Certificate and Champion Sow.

Champion Heir, old and young; and Breeders' Herd, all Berkshires.

This was the first visit from Sunnybrook Farm.

On being awarded the diploma, Mr. Gilbert received the heartiest congratulations, and a very strong invitation to come back, although all the prizes but one came to Stony Plain.

They are real sports on the Coast, and good losers.

They certainly appreciate an exhibit of good stock.

Good Stock in good advertising.

that those who had voted against the progressive party got fairly treated also.

Some of the men connected with the election had had to pledge their credit to secure the necessary funds to meet election expenses; and it was estimated that over 10,000 persons in the country had voted for the U. F. candidate. Mr. Duckworth, election agent for Mr. Kennedy, figured that if they gave 25 cents each, it would clear up the election expenses.

Mr. Bevington occupied the chair very capably on Saturday, and Mr. Washburn handled this end very acceptably on Monday.

Some Locals are raising their political dues by donating a few bushels of grain each, and another man lauds the grain as his part in the good work.

The officers elected for the coming year were:

Pres., Mr. Duckworth;
1st V. Pres., Mrs. Field;
2d V. Pres., Mr. Tooley, Peace River.

It is only fair to add that Mr. Kennedy paid a high tribute to the Labor officials in the help they had given in connection with the election.

A resolution was passed, expressing the deep sympathy the Convention had with Premier Greenfield, in his great bereavement.

Carvel News Items.

The ratepayers of Carvel School District held their annual meeting on Tuesday last. Everybody turned out with great enthusiasm; and, with a number of ladies attending, it made the election meeting the largest ever held in the district, which showed the earnestness of the people as a whole, who realized the great need of a change of conditions.

The Department of Education came to the rescue, and took the matter out of the Trustees' hands, and selected a teacher who is capable of teaching up to Grade Twelve.

We are looking forward to great improvements with the new Trustees, in the way of more interest taken in the attention of the school, which a number spoke of.

It was reported that an American flag adorned the entrance of the room. Think of an American flag in a Canadian school, in the place of a Union Jack! How long would they stand for this in the States vice versa? This was also ordered down by the Department.—(Contributed.)

Rice Sheppard Removed.

Unprecedented scenes of a dramatic character were enacted at the Wednesday session last week of the U. F. A. Convention in Calgary, when the delegates after a two-hour fight of the warmest kind adopted Resolution No. One on the list, which recalled Rice Sheppard from his position on the Executive Board of the association for alleged disloyalty to the organization for opposing D. W. Warner, U. F. A. candidate in the recent election contest in Strathcona.

He leaned forward in the trees, but at that moment Riles clutched Gardiner's arm and said something in a low voice. The two men rode through the river, and their words were drowned in the lap of the water.

The smile did not leave Travers' lips as he wound up his reel and stole swiftly along a cattle-track up from the river, but a sudden light gleamed in his eyes and his muscles hardened with excited tension. He knew the shanty to which Gardiner referred, as they had once been there together, and he resolved that if there were going to be any "doings" in that locality to-night he would furnish a share of the excitement. Unfortunately, the ford was on a cross road little used, and it was two miles back to the ranch. Had he been raised on the ranges he would not have been caught so far from his horse, but a Manitoban sometimes uses his legs to walk with, while his brother in Alberta finds them useful only for wearing, escape and straddling a saddle. By the time Travers reached the ranch buildings, caught and saddled his horse, made a fruitless search for his revolver, substituted a rifle which lay at hand, and at length found himself upon the trail, darkness was setting in, and Gardiner and Riles had many miles' start of him.

When the two plotters stopped to let their horses drink at the ford Gardiner suddenly broke off from their conversation to make a few remarks about Travers and Harris. Riles had listened indifferently until his eye caught sight of Travers, half concealed among the cotton-woods that fringed the stream. He clutched Gardiner's arm.

"Hush," he cautioned. "Jim's just

behind the bank. I'm sure I saw him, as he heard you, too."

"Good," said Gardiner, quite undisturbed. "Now we can go on." They released up their horses and plunged into the swiftly-running water. "You see," said Gardiner, as the horses took the opposite bank with great strides, their wet hoofs slipping on the round boulders that fringed the stream—"You see, I knew Jim was there all the time. Those remarks were intended for his benefit."

Riles parted with a great chew of tobacco. "You beat me," he said, wiping his lips with the back of his hand. "You plumb beat me."

Gardiner enjoyed the note of admiration in his companion's voice. He enjoyed also that knowledge that Riles was utterly at sea; that he had no more idea than the horse he rode what lay before them that night.

"It's all quite simple," said Gardiner, after a pause. "Jim will hurry back to the ranch, saddle his horse, and follow us. By the way, I didn't tell him I borrowed his revolver. That may delay him some. But he should arrive at the shack in time to be taking a few stealthy observations just about the moment the Harries are hunting for their money bag. I hope Alisa doesn't see that shot-gun on him. A shot-gun makes an awful hole in a man, Riles."

Riles experienced an uneasy feeling up his spine.

"Well," continued Gardiner, "I promised to lay the whole plan before you, when we were safe on the road with no possibility of any strange ears cocked for what a man might happen to say. Look at that sunset, Riles; isn't that magnificent?"

"Good enough, I suppose," said Riles, "but I hope we didn't come out here to see the sunset. How about this plan of yours?"

"Riles," admonished Gardiner, "you've no more soul than a toad-stool. You haven't any imagination. I wonder you have faith enough to wind your watch. Now if you could paint a picture like that it would make you more money than you ever saw—including what you're going to see to-night."

"But to get down to the scheme, it's all easy sailing now. The big thing was to get them on the road with the coin. That's what I needed you for, Riles. And you didn't do too bad. I had to prod you along a bit, but you'd thank me for it when it's all over."

"Yes, but it's them that's got it, not us," commented Riles.

"Sure, but it'll be different in the morning." Riles, you are a goony devil. Here you have ten thousand dollars right in your mitt and you're as happy as a man with a toad. Now this is how it will work out, to a T. The two Harries will get up to the shanty about dark. They'll pitch camp there and begin to wonder when we'll be along. Well, we won't be along until it's good and dark, even if we have to kill time on the road. If Travers catches up on us we'll just let him make one of the party, which will be sort of embarrassing for him. But he won't catch up. Well, when it's good and dark—there'll be no moon till after midnight—and they're both sleepy with their long drive in the high altitude, we will arrive nearby. You will go up to the door and take a look on the quiet. I will go up to the window and do the same. There's no glass in the window, and there's no door on either, as I remember. We'll slip up things inside, particularly the location of the coin. Then you show yourself. Tell 'em I have the owner of the mine out there in the trees, but the old fellow won't come in until he has a talk with them. Tell 'em they better not show the money until they chat with him a few minutes. Likely they'll fall for that, as they don't seem to have the slightest suspicion. But if they balk at leaving the money let them bring it along. Once put in the dark the rest will be easy. But I figure they'll leave the money in the shack—it's just for a few minutes, you know—and they'll reason that it's safe enough with so one but ourselves within miles. Well, you lead them off down through the bush. As soon as you do that I'll slip in through the window, gather up the long green and cache it somewhere in the scrub. You won't be able to find me at first, but when you do I'll say the old fellow wanted to go up to the shack himself to meet them, and I let him go. Then we'll all go back to the shack, and find both the money and the old man—the mine-owner, you know—missing. Then we'll start a hue and cry and all hit into the bush. You and I will gather up the spoil and make a quiet getaway for the night. Of course we'll have to turn up in the morning to avert suspicion, but we can tell them we got on the robber's trail and followed it until we lost ourselves in the bush. In the meantime the Harries will be tearing around in great excitement, and they're almost sure to run on to Travers. Harris recently fired Travers, and Alisa had a fight with him, if you told me right, so it's not likely they'll listen to any explanations. They'll turn him over to the police, and as it's the business of the police to get convictions, they'll have to frame up a case against him or be made to look stupid—and that's the last thing a policeman likes. Then you and I will quietly divide the proceeds of our investment, and you can go back to your farm, if you like, and live to a ripe old age and get a write-up in the local paper when you shuffle off. As for me—I'm not that type, Riles, and I'll likely find some other way to spend my profits."

"It looks easy," Riles admitted. "But what about Jim? He'll tell what he heard you say at the ford."

HEALING SOOTHING ANTISEPTIC *For Burns, Scalds, Bruises* **Lam-Buk**

"Let him. Nobody'll believe it. Remember that when he tells that he'll be under arrest, and when a man's under arrest his word is always discounted. To be arrested means to be half convicted. It takes two good witnesses to offset the moral effect of arrest, and Travers will have no witnesses."

"It's all quite easy," Gardiner continued. "And if it should fail there are a dozen other ways just as easy. But we won't let it fail. We mustn't let it fail, on your account."

"On my account? What more account mine than yours?"

"Well, you see, Harris, no doubt, has your letter showed away somewhere, and it would make bad evidence for you. I don't think it mentions me at all. Besides, I know a way through a pass in these mountains, and if it doesn't turn out right—why, I'm glad I know the way. You see, I've nothing to lose, and nobody to worry over me. But it's different

Reasons Why Wm. Rimm Praised Dodd's Kidney Pills

His Backache is Gone and His Feet are Unbroken So He Will Turn Again to Dodd's Kidney Pills if His Trouble Returns.

Quandville, Ont.—(Special).—"I can truly say that I got great relief from Dodd's Kidney Pills."

Such is the verdict of Mr. William Rimm, a well known and highly respected resident here. And here is the reason why Mr. Rimm is so positive:

"Before I used Dodd's Kidney Pills I had backache all the time," he states, "and I had to get up once or twice every night and now I have no trouble at all."

"I only used two boxes of Dodd's Kidney Pills. But if ever I am troubled with my kidneys again I certainly will use Dodd's Kidney Pills."

Dodd's Kidney Pills are known all over Canada as a standard kidney remedy. They have made their reputation by doing good to people who suffered from any form of kidney disease.

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

with you, Hiram. You have a wife and a few farm boys in Manitoba, and it would be inconvenient for you to slip away without notice. So I say that on your account we mustn't let it fail."

"You didn't say nothin' about that before, I notice," said Riles.

"You mustn't expect me to do your private thinking as well as that of the firm," Gardiner retorted. "You had the facts—why didn't you patch them together for yourself? You're in a mess now if things don't go right. But, as I said, I'm going to stick with you and see that they do go right."

They rode along in silence in the gathering darkness. Had they been able to read each other's minds they would have been astonished at the coincidence of thought. Gardiner was planning to make away with the money when he got out of the building. Why should he divide with Riles—Riles, who would only hoard it up, and who had plenty of money already? Not at all. Riles might use him for his share, if he wanted to—and could find him, to serve notice! On the other hand, Riles' slow wit had quickened to the point of perceiving that there lay before him a chance of making twenty thousand dollars instead of ten thousand, if he only had

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills—the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicine for what they have done for me, and you may use my letter for the benefit of others."

Farmers Decide That Export Meat Business Is Not Profitable

Calgary.—Expressing an opinion that the establishment of any scheme for wheat marketing would be unlikely to secure for the farmers enough money to make it a problem for serious consideration J. B. Musselman, secretary of the Saskatchewan Grain Growers' Association, speaking as a fraternal delegate to the United Farmers of Alberta convention, stated that the farmers must go through a period of suffering during the time in which there was being brought about a re-establishment of a reasonable parity between the prices at which the farmers have to buy and what they have to sell. Such a time of distress, he thought, was impossible to avoid, and it must be borne by all, farmers, laborers and business men alike.

United Farmers of Alberta at this time will not go into the co-operative meat export business. After a long discussion, the 1,043 delegates decided to table indefinitely a report from a special committee which recommended that the association go into the business of shipping chilled beef to British markets on a co-operative plan.

F. M. Black, treasurer of the United Grain Growers, Limited, who spoke by invitation, was not optimistic over the possibility of developing a chilled beef export business from Alberta points. Mr. Black predicted the removal of the British embargo on Canadian cattle within about six weeks, as the result of the settlement of the Irish question.

The report of the committee advised that action should be taken immediately to start marketing Alberta beef by the chilled meat system, through the medium of a co-operative company.

Hon. George Hoadley, provincial minister of agriculture, had written that the Government was convinced that the weight of evidence went to show that shipping of chilled Alberta beef to the British market would not be a profitable enterprise.

COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. Is it any wonder that the heart becomes affected and she gets irritable and nervous, has hot flashes, faint and dizzy spells, smothering and sinking spells and can't sleep at night.

To all women whose heart is weak and whose nerves are unstrung we would recommend

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the system and strengthen the weakened organs.

Mrs. Daniel Dezanon, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me."

My heart was so bad at night I could not sleep, I would take smothering spells, and was so weak I could not do any housework. I tried two doctors, but got no results. A friend advised me to try your pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble there is."

Belgian Charged With Obtaining Money Under False Pretences

Vancouver.—George Darrison, a Belgian, is in hospital suffering from bullet wounds in the thigh inflicted by police of South Vancouver when he resisted arrest on a charge of obtaining money under false pretences. Darrison is alleged to have advertised for workers for a paper mill which was to be started at Coquitlam, B.C., with Belgian capital. He is said to have collected a deposit from prospective employees on account of board and lodging to be arranged for.

Union Bank of Canada Aids Agriculture

Annual Report of Union Bank of Canada Shows This Institution Continues to Give Valuable Assistance to Farmers

The 1921 report of the Union Bank of Canada now available to the public could not have appeared at a more opportune time.

The outstanding impression that is gained from examination of the bank's statement is that the bank has been particularly active in providing for the needs of its farmer clients. Current loans and discounts to Canada total over \$82,000,000 and demand loans in Canada secured by grain amount to \$7,295,483. These and other figures in the statement prove that the bank is helping to finance the agricultural industry of the Dominion to substantial measure.

Dealing with the report as a whole, it is very reassuring to note that the Union Bank has been able to maintain a strong cash position. Total assets exceed \$102,900,000, and include gold and silver coins and Dominion Government notes amounting to \$14,228,758, Dominion and Provincial Government securities \$15,946,541, Canadian Municipal securities and other public securities totalling \$9,618,252, current loans and discounts in Canada \$81,016,067, and loans to governments and municipalities \$7,420,539.

The officials of the bank deserve commendation for placing before the public such a strong balance sheet, particularly in view of the fact that such a statement will serve as a stabilizing medium at this time.

Cabinet Differences Add To Worry Of The British Premier

London.—The London Times says that the cabinet differences were so acute at the last weekend that there was a possibility that Premier Lloyd George would withdraw from the government and hand the reins over to Austen Chamberlain, who, heading a United Unionist party, would have a working majority of about 100 in the House of Commons, from which the Sinn Féin members still remained absent.

The Times adds that this possibility may now be said to have disappeared; that Mr. Lloyd George was reluctant to leave office before completing the act of parliament involved in the Irish treaty and was also keenly desirous of realizing fully the possibilities of the Geneva conference.

The postponement of the re-opening of the British Parliament from January 31 until February 7, was said by the party whips to be due to the fact that parliament usually meets during the second week of February and that there was much financial "spade work" to be done before it can re-assemble.

In political circles, it was said the report of the economy committee headed by Austen Chamberlain and Sir Eric Geddes, was not yet ready and would not be available yet for at least a fortnight. The government wished

to digest the report thoroughly, it was said, before parliament meets.

The Evening Standard says it understands one of the main reasons for postponement is on account of problems in connection with drafting necessary legislation to put the Irish treaty into effect.

The Hard Time Prize Winners

There was a big attendance at the hard time dance last Friday night, in Durbolke's Hall, regardless of the stormy weather.

The costumes were many and varied, and during the Grand March the judges had an excellent view of all the patches, colors and garments imaginable.

Mrs. Pugh of Wainburn, Miss Harley, Dr. Jones and Mr. Hainsworth formed the Judges' Committee, and in awarding the prizes won the approval of the crowd.

Mrs. Plaster won the lady's prize.

Mr. McEachern the gent's first prize.

Miss Nellie Spady and Mr. Adolf Schaepp of Spruce Grove, caught off the foot prize.

Mr. Schaepp's costume was especially original and won marked attention.

There were many other good costumes, too numerous to mention.

The hard time constables kept the hard time judge's court busy fineing all who came over dressed and wearing too expensive jewelry for these hard times.

The Jardine Orchestra of Edmonton furnished excellent music, and, with good much served by Mrs. Malloch's committee, one of the jolliest affairs of the winter came to a close all too soon.

That is What You Can Do Provided You Take Advantage of Our Offer

We have made arrangements with the E. H. Smith Co. Limited to publish the CANADIAN POWER FARMER whereby we are able to offer that farm magazine together with our own weekly at the one price for both papers.

The CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experiences on the operation of all kinds of farm machinery from a washing-machine to a tractor. Its editor has just completed a trip of several months over Western Canada in a motor car for the purpose of studying the mechanical needs of the farmers. He visited the farmers, lived with them and worked with them. The results of his trip will appear during the next twelve months.

This offer may be withdrawn at any time. Without doubt your intention is to renew for this weekly, then why not take advantage now. Your subscription to this weekly together with a year's subscription to THE CANADIAN POWER FARMER for the same price as this weekly alone. This is where you make \$1.50 on a bushel of wheat.

Winnipeg Planning Industrial Credits

Estimate Five Million Dollars Needed to Finance Undertaking

A system of industrial credits, similar to rural credits scheme, will be put into operation early in the new year by the Winnipeg Trades and Labor Council, it was announced. The proposal, which is only in a tentative form, will be to loan money to small industrial concerns at a slightly higher rate of interest than it costs to provide for administration expenses. It is estimated \$5,000,000 will be needed to finance the undertaking, and this will be raised by means of a loan.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are unchangeable—one day bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Young Girl's Party Frock of Pastel

By Marie Belmont

Pastel shades are favored for the younger girl. This shell colored charmisse is essentially the lightest type most suitable to the young miss who will wear it.

The simple bodice extends into a straight across top portion, which drops over the shoulders in the newest fashion. The plain bodice is drawn in to fit the figure.

Recess of the material decorates the belt front. The only other trimming note appears in the three applied folds of the charmisse. The folds diminish in width as they near the top of the skirt, this idea being one borrowed from mother's party frock.

CATARRHAL DEAFNESS

Is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions.

Immigration to Canada

Report Shows More British Than Other Nationalities

The total immigration to Canada for the month of November, 1921, was 4,546, 1,404 being from the British Isles, 1,747 from the United States and 1,400 from other countries. Immigration to the Dominion for the first eight months of the fiscal year, April to November, totals 75,575, of whom 35,943 are British, 23,379 from the United States and 17,255 from other countries.

One of the best known guides in Nova Scotia gives this testimonial of MINARD'S LINIMENT:

"Have used Minard's Liniment in my home, heating and lumber camps for years, and consider it the best white liniment on the market. I find that it gives quick relief to minor ailments, such as sprains, bruises and all kinds of wounds. Also it is a great remedy for coughs, colds, etc., which one is liable to catch when log driving and outlying during the winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly." (Signed) E. J. Green Gray.

Alberta Turkeys Sent to States
Twenty thousand pounds of Alberta turkeys were shipped to Minneapolis and St. Paul during the Christmas season through the medium of the egg and poultry branch of the department of agriculture, which handled 49,000 pounds altogether of the surplus turkeys raised by Alberta farmers.

PATRICK J. HALEY
Syracuse, N. Y.

"I'm feeling like a new man since Tanlac soothed and toned-up my stomach and for the first time in forty years can eat a hearty meal and suffer no distress afterwards," was the remarkable statement of Patrick J. Haley, 107 Prospect Ave., Syracuse, N. Y., a well-known iron and steel worker.

"Only those who have had stomach trouble in a bad form can know what I suffered during all those years. I was almost a nervous wreck, too, and for years I didn't know what it was to get a good sound sleep at night."

"I got new life and energy from each dose of Tanlac and now I'm a well and happy man instead of a sick and miserable one as I was for so many years. I'll vouch for the merit of Tanlac at any time."

Tanlac is sold by leading druggists everywhere.

Why does any healthy person want to be kicked into wakefulness in the morning?

Many people feel that they have to be agitated into wakefulness in the morning. They think that without the tea or coffee they take in the morning that they will not be able to meet the tasks and duties of the day.

Nothing could be more false than this reasoning. Any doctor can tell you this. For a healthy body does not need or require a stimulant. It gets all the stimulant it needs from food.

The thein and caffeine found in tea and coffee are irritating to the heart and nervous system. They jolt the nerves into undue activity. The result is a reaction. This is why regular tea and coffee drinkers think they must have their stimulant the first thing in the morning to wind them up for the day.

If you will stop using tea and coffee for a week, and drink

Postum, the pure cereal beverage instead, it will give Nature an opportunity to rid the system of the irritating substances that harass your nerves, upset digestion, increase your heart action, and make you nervous and irritable.

Many people who have tried Postum say that inside of a week they wake in the morning without that "all gone" feeling that they used to have, and are full of energy, strength and endurance.

Order Postum from your grocer today, and make it according to directions. Your first sip of Postum will surprise and please you.

Postum comes in two forms: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Denny Draws Two Years.

In the Supreme Criminal Court last week, in Edmonton, the charge against Denny Masenko was changed from attempted murder, to "wounding with intent," and Chief Justice Harvey sentenced him to 2 years imprisonment in Prince Albert Penitentiary. Mr. F. W. Lunday, the well known lawyer conducted the case for the accused, and the leniency shown by the Justice came as a surprise to the laymen interested in the case.

Miss Austin Honored.

At the meeting in Edmonton last week of the Canadian Club, a pleasing feature was the presentation to Miss Elaine Austin of an award of \$50 for being the winner in the essay competition conducted by the Club. Miss Austin, who is a Grade 12 student in Strathcona High School, wrote on "The Exploration of the Mackenzie River Valley," and the judges said the essay was of exceptional merit.

Relief for the Southerners.

The following letter has been sent out by Premier Greenfield, and the object for which assistance is sought receives his hearty endorsement:

Edmonton, Jan. 12, 1922.

The Red Cross Society of Alberta, by arrangement with the Government of Alberta, has been in charge of the distribution of clothing to the residents of the drought stricken areas where needed. The Society now finds that the funds for this work have been exhausted, and it is opening a campaign for the raising of from \$30,000.00 to \$40,000.00 for the payment for clothing already purchased, and for the carrying on of this work for the balance of the season.

I have no hesitation in giving this appeal my hearty endorsement. The work of the Red Cross in the distribution of this clothing in the drought areas has been of inestimable value.

The need for clothing is a real one and I am confident that the need existing now in the south for clothing only needs to be drawn directly to the attention of the people of Alberta to ensure a generous response to this appeal for funds.

(Signed) Herbert Greenfield,
Premier.
